

Instructions: The following tests can be performed on a single whole blood EDTA specimen (minimum volume of 3 mL). Prioritize testing order when sending samples.

Test ID	Published Name
GAL14	Galactosemia Gene Analysis, 14-Mutation Panel, Varies
GAL1P	Galactose-1-Phosphate (Gal-1-P), Erythrocytes
GALE	UDP-Galactose 4' Epimerase (GALE), Blood
GALK	Galactokinase, Blood
GALT	Galactose-1-Phosphate Uridyltransferase (GALT), Blood
GALTP	Galactose-1-Phosphate Uridyltransferase Biochemical Phenotyping, Erythrocytes
GALTZ	<i>GALT</i> Gene, Full Gene Analysis, Varies
GCT	Galactosemia Reflex, Blood
